

## Notice to Participants

Entries will be placed under consideration from all whom submit an Entry Form that includes all required payments. Each entry will be authorized by JE-CO Motorsports and/or Chief Instructor. All entries must be paid in full. Failure to attend scheduled race will result in forfeiture of full entry fee. All events are filled on first come, first serve basis.

Driver Development Program participants are financially responsible for all damage incurred to the racecar they are driving in the JE-CO Motorsports Driver Diversity Development Program events. Participants have the option of purchasing a Vehicle Damage Waiver; the cost per event for "A rated" drivers is \$600 (\$300 for lapping day). The Vehicle Damage Waiver caps the driver's maximum liability to \$5,000 per incident. If a Driver incurs damage to a racecar severe enough to render it inoperable, the JE-CO Motorsports reserves the right to disqualify that Driver from continuing. The Vehicle Damage Waivers, whether accepting or declining the coverage, must be submitted with this form. The Vehicle Damage Waiver does not cover damage to racetrack grounds and facilities. All repairs to racecars shall be performed at prevailing industry rates. Drivers are also liable for over-revs. Over-revs will be charged on a sliding scale depending on the severity of the incident; Charges start at \$25 per each 100-RPM over-rev. By submitting this form, signor authorizes JE-CO Motorsports to charge the credit card for the enrollment fee and any damage that is done to the car unless another form of payment is arranged before the event. A receipt of the damage charges will be provided to the participant.

An entry submitted and accepted constitutes a binding contract to comply with all terms and conditions of the official entry form, the JE-CO Motorsports and all-supplementary rules and procedures of sanctioning bodies at participating events. The submission of this form grants permission for JE-CO Motorsports, its sponsors, event promoters, contracted third parties and the sanctioning bodies to use the Driver's name, photo, and photos of racecar in advertising and promotional materials, excluding product endorsements.
